

Modular Laboratories

Frontier Refining, Inc.

Art's-Way Scientific, Inc.

Preparing the foundation to receive modular units

Turnkey
Cost Effective
Flexible Design
Rapid deployment
Energy Efficient

Rapid deployment allows for immediate occupancy

The Need

Replace Frontier's existing 40-year old quality control lab with a new modular laboratory.

The Challenge

The site required special attention due to environmental contamination as well as significant infrastructure constraints.

The Result

A modern, user-friendly environment that facilitates a safe working environment for the testing and inspection of petroleum based products.

Facts & Figures

Owner: Frontier Oil & Refining

Type of Project: Modular Quality Control Lab

Location: Cheyenne, Wyoming

General Contractor: Lockard Construction

Size: 4,308 square feet

Construction Time: 9 months
